Paediatricians

Dr Erin Ransley – Paediatrician

Works with children and infants diagnosed with more complex health issues and has advanced training in neonatology and paediatric rehabilitation, with experience in treatment of complex medical issues including cerebral palsy and brain injuries.

Dr Vanil Varghese – Paediatrician

Has a decade of experience providing paediatric care in both the UK and Australia. Providing holistic family-centred care from birth through to adolescence, Dr Varghese helps children of all ages overcome complex medical needs and developmental issues.

Dr Tommy Tran – Paediatrician

Is a founding member of the Paeds in a Pod practice and serves as the Director of Paediatrics at Greenslopes Private Hospital. His interests span all areas of paediatric health from newborn babies to adolescents. He is heavily involved in medical education and completed a fellowship year in Paediatric Respiratory and Sleep medicine before being awarded his FRACP in 2012.

Dr Megan Yap – Paediatrician

Enjoys working with children and infants of all ages and their families. She cares for patients with a broad range of medical issues and has a special interest in developmental paediatrics. She also works at Ipswich Hospital as Lead Community Paediatrician, and writes a weekly children's health blog "Dr Megs - Paeds & Feeds."

Dr Donna Taylor – Paediatrician

Has worked as a general paediatrician in both the public and private sectors caring for neonates and premies through to adolescents with a broad range of medical and developmental conditions and has a further Fellowship in developmental paediatrics.

Dr Diana Ting – Paediatrician

Works with babies and children and has a holistic approach to patient care, including aspects of growth and development. Diana's special interests are neonatology and the management of children with complex needs.

Paediatric Gastroenterologist

Dr Geoff Withers – Paediatric Gastroenterologist

Diagnoses and supports in the management of all types of gut and tummy problems, including abdominal pain, allergic gut disorders, Inflammatory Bowel Disease, Crohn's disease, Irritable bowel syndrome, Gastroesophageal Reflux, constipation, Coeliac Disease, Hirschsprung's disease, paediatric liver disease, digestive problems, childhood feeding disorders and more.

Paediatric Allergist & Immunologist

Dr Alberto Pinzon Charry – Paediatric Allergist and Immunologist

Specialises in the treatment and management of diseases of the immune system. Including treatment and management of: Allergic diseases (food allergies and intolerances, eczema, insect and drug allergies, anaphylaxis, allergic rhinitis and asthma) Urticaria, angioedema and hereditary angioedema and Immunodeficiency diseases.

Paediatric Physiotherapist

Lisa Blackburn – Physiotherapist

Has been working exclusively with children and their families for over a decade, predominantly with children with developmental and behavioural concerns and has a strong interest in Developmental Coordination Disorder.

Paediatric Nutritionist

Danielle Savic – Nutritionist

Specialises in Failure to thrive, Introduction to solids, Fussy eating, Food aversions, Childhood and adolescent obesity, Weight management (loss and gain), Allergies, Intolerances, General healthy eating, FODMAPS and IBS & Nutrition and diabetes – improving quality of life through diet.

Paediatric Speech Pathologist

Kiru Kander – Speech Pathologist

Is a Certified Practising Speech Pathologist (CPSP) with over 23 years' experience. Kiru has worked in a variety of settings and has completed further postgraduate study: a Master's in Education with a Major in Special Education and Postgraduate Qualifications in Community Mental Health.

Paediatric Occupational Therapists

Emma Lloyd-Wright – Occupational Therapist

Specialises in working with children with ASD and has experience evaluating both child development and behavioural challenges. Emma can administer a range of standardised assessments. She helps children with: Daily Life Skills, Sensory and Emotional Regulation, Play and Social Skills, Visual Perception & Motor Skills and Coordination.

Kate Schatz – Occupational Therapist

Kate helps to develop practical and functional treatment plans which can be incorporated into daily life. She has focused on children with ASD and other developmental delays, including toilet training, feeding and mealtime challenges in earlier years, as well as social and behavioural difficulties within school and play.

Paediatric Psychologist

Julie Steward – Childhood Psychology

Has specialist expertise working with children and families who have experienced trauma. She gained this experience whilst working as a psychologist for specialist services addressing physical, sexual and emotional abuse in children. Julie has also worked as a school psychologist helping children address home and school concerns.
