## **"Behavioural Problems in Children"**

**PRESENTERS: Dr Ian Shellshear, Paediatrician  
Dr Hsien-Jin Teoh, Clinical Psychologist**

Does your heart sink when a parent comes in to your practice wanting the child to be "assessed". The assessment is often initiated from the kindy or school because of concerns from the teacher and parent. There are some basic things the GP can do prior to referral. Then there are the questions which children need referral and who to refer to for further assessment and treatment. Come and find the answers to your questions. See the local pathway developed in the Map of Medicine.
