

GPPARTNERS' BULLETIN

December 2013
Volume 2, Issue 10

From the Chair

It has been a busy year for GPpartners. We hope you have been able to attend some of the educational events this year. We try to make the evenings relevant and useful for GPS as well as providing an opportunity to discuss issues with other GPs. GPs even in group practices can be isolated and the GPpartners meetings are a place to have a chat with fellow GPs.

GPpartners has been able to have input at a National, State and Local level about the issues facing General Practice as well as offering some possible solutions.

Although it is difficult to think past Christmas at this time of the year we have started planning education evenings for next year. The Day Hospital at North Lakes is co hosting an evening on the 30th January "Getting to the Bottom of things". The topics will cover current trends in HRT, haemorrhoid treatment and the latest in urology. GPpartners is working with ACU Physiotherapy and Dr Neil Hearndon on topics in musculoskeletal medicine for February. We will be working with Holy Spirit Northside on regular events. In the January newsletter we will be able to give you more information.

Thank you again for the great support this year by attending education events and becoming members of GPpartners. If you aren't a member please complete the online registration form at www.gppartners.com.au.

Wishing you all a Merry Christmas and Happy New Year.

Dr Jayne Ingham
